## Summary

Dynamic Web Developer and UI/UX Designer Instructor with a proven record at Vocational Training Center. Expertise in HTML, CSS and JavaScript along side related libraries, web frameworks and Algorithm Data structures. Skilled in Quality assurance (QA) testing and offering targeted feedback. Achieved significant improvements in learning outcomes and technology management.

## Experience

- **FrontEnd Development Instructor**  
CREATIVE INFINY GROUP, Oct 2023 - Present

Develop visually appealing website interfaces with HTML, CSS and JavaScript. Manage classrooms, evaluate student performance, adjusted teaching methods, monitor progress and assist struggling students by identifying underlying issues.

- **Junior Web Developer**  
HOPE 4 HUMANITY OUTREACH, Jan 2024 - Present

Designed visually appealing website interfaces using HTML and CSS, implemented responsive design. Contributed to web app development with PHP frameworks like Laravel. Used JavaScript for quality front-end designs, ensuring seamless user experiences on diverse devices. Also built web applications with WordPress.

## Internship

- **Backend Development with MongoDB**  
NEW GENERATION TECH. Jan 2023 - Sep 2023

Developed e-commerce web applications using MongoDB, including designing database schemas, creating web services, and ensuring smooth frontend-backend integration for user experience. Quality testing was conducted for high performance and reliability.
